

1 Insert in lines 7 and 19 the words "up to" prior to the number "145".

2

3 Delete in line 33 the words "in six (6) months" and insert the word "monthly".

4

5 Insert in line 21 after "construction" the words "and all renovations of the existing facility".

6

7 Insert all of the following at line 23:

8

9 BE IT FURTHER RESOLVED that the jail rental controls are needed to ensure  
10 sufficient jail space for local use (there were 804 people in the jail in June, 798 in July, &  
11 783 last week); prevent contracts that may force overcrowding, reduce safety, and increase  
12 exposure to expensive legal and medical risks (last year there were 2 suicides); and  
13 promote a business-like negotiation of rental prices to recover long-term county jail costs.

14

15 BE IT FURTHER RESOLVED that rental of space in the jail is only allowed as long as  
16 the total inmate population (including any rental additions) remains at 90% or less of the  
17 rated capacity of the facility (774 people).

18

19 BE IT FURTHER RESOLVED that as jail population (including rentals) approaches or  
20 passes 90% of the new rated capacity (774 people), then rentals shall be reduced (until  
21 zero if necessary) to prevent overcrowding and violations of state regulations (any rental  
22 contact must allow for this local flexibility).

23

24 BE IT FURTHER RESOLVED that all of the continuing violations of jail regulations  
25 from the 2006, 2005, and 2001 jail inspection reports from the state of Wisconsin shall be  
26 corrected prior to contracting for any jail rentals and shall remain so (WI DOC 350.07(7)  
27 hourly cell checks, 350.05(3)(d)(1) proper beds, and 350.05(4)(b) dayroom seating).

28

29 BE IT FURTHER RESOLVED that there shall be no mixing of local jail inmates with  
30 state prisoners and that state prisoners shall be maintained at all times in separate areas.

31

32 BE IT FURTHER RESOLVED that any deviation from any of the jail rental population  
33 controls in this resolution shall immediately rescind any and all authority from the county  
34 board to rent any part of the jail and any authority to retain staff related to doing so.

35

36 BE IT FURTHER RESOLVED that county staff shall conduct a study of actual jail  
37 costs (within 6 months) so that the county can negotiate rental levels and pricing from an  
38 informed long-term perspective of what the actual and likely costs are. The state is trying to  
39 push its prison overcrowding problems to counties at a bargain price for itself. The rental  
40 price that the state offers of \$51/day is \$38/day below its own average costs/inmate/year  
41 and this price is not fair to local property taxpayers who have built this jail and are entitled  
42 to full cost recovery. County costs not considered include, but are not limited to legal and  
43 medical risks, debt service, ongoing capital investments, processing effects (in and out of  
44 the jail on jail and other law enforcement staff), use of county computers and  
45 administrative resources, average staff costs, and so on.
