

Computer Numerical Control (CNC) Boot Camp XXVI

Next **Free** CNC Boot Camp training will be **January 9, 2017 – April 14, 2017**

This 14-week boot camp is designed to teach the essentials of Computer Numerical Control (CNC) operations. Gateway Technical College, in partnership with the Southeast Wisconsin Workforce Development Board, offers this training as a certificate program. The program is ideal for dislocated or underemployed workers.

The CNC Machine Tool Operator Boot Camp is the first step toward an in-demand career as a CNC computer programmer, laser cutting machine operator, robotics machine operator or machine maintenance technician. These experts program and run accurate, computer controlled tools to mill, shape and grind metal into precise shapes.

The 14-week Boot Camp is an innovative, fast-paced, hands-on program that teaches the essentials of specific technical skills required to obtain entry-level employment.

Interested in learning more? You must attend a ***Classroom Expectations/What it Really Means to be a CNC Operator information session.***

Wednesday, November 9th	9:00 a.m. iMET (Room 400)
Monday, November 28th	1:00 p.m. iMET (Room 400)
Wednesday, December 7th	9:00 a.m. iMET (Room 400)
Wednesday, December 14 th	9:00 a.m. iMET (Room 402)
