ADDENDUM

Invitation For Bid

Pritchard Park Wetland & Prairie Restoration Bid # PW1807

This Addendum has been prepared by: Racine County
Gwen Zimmer, Finance Manager
Date: Monday, May 7, 2018

This Addendum is issued to address questions received from vendors requesting clarification from Racine County on the specifications provided for the above subject proposal:

- 1) Since the wetland areas are now being allowed to be broadcast seeded, will the County also allow the upland prairie areas to be broadcast seeded?

Yes, seeding of the wetland *and* prairie can be broadcast in lieu of drill seeding.

- 2) Is the bid item 3 "Annual rye and Oats seed at 1.5 pounds per acre" mean just providing the seed and not install?

The amount of annual rye and oats should be adjusted to 10lbs per acre.

- 3) Adjustment to the shrubs list – update these species and reduce the quantity from 33 each to 15 each in five pound containers

- **Replace Aronia melanocarpa (Black Chokeberry) with Cornus sericea (Red Osier Dogwood)**
- **Replace Sambucus ebulus (Dwarf Elderberry) with Sambucus canadensis (Common Elderberry)**
- **Keep Physocarpus opulifolius (Ninebark)**

Please sign, date and attach a copy of this addendum to your Proposal.
