

# Highway Permit Application Drawing Requirements

Highway permit application drawings must conform to Racine County requirements *See RACINE, WIS., COUNTY CODE OF ORDINANCES § 16.146(c)(1) (2009).*

The County of Racine will reject applications that do not conform to requirements. The applicant must modify the application to comply with requirements and reapply. Re-applicants will not pay an additional fee.

Requirements vary according to type of application. Consult the following list and the example application drawings to create an acceptable highway permit application. Click on the internet links (shown in a blue font) to obtain the information you need to include the feature in your drawing.
