July 9, 2018

MEMORANDUM

TO:

Racine County Finance and Human Resources Committee

FROM:

Julie A. Anderson, Director, Public Works & Development Services Director

SUBJECT:

Request for one percent pay increase for highway crew, formerly "Teamsters"

In accordance with the Racine County Human Resources Manual, I am requesting permission of the Committee to approve a one percent pay increase effective July 1, 2018 for the Racine County highway crew.

The highway crew is in a tiered pay system that is different from the rest of the Racine County full time employees who are eligible for merit pay on their anniversary date.

The total increase would cost \$29,313. This impacts a total of 55 FTE highway crew. This does not include the management team, as they are in the merit pay system.

Of that total, \$12,958 would be covered by the State.

The impact on the 2018 levy is \$16,355.

We have sufficient funds to cover the requested increase.

Thank you for your assistance. I appreciate your kind consideration.

Re: Additional Funding for Racine Vocational Ministries ("RVM")

In the 2018 Budget, the County Executive included \$15,000 for the Racine Vocational Ministries ("RVM") for operational funds for the RVM's Second Chance Reentry Program. The signed MOU allowed for an additional \$15,000 in July to be paid to RVM for the Second Change Reentry Program upon receipt of a report to the County Executive's Office that demonstrates positive, measurable results, including an increase in the number of customers served and impeccable tracking methods. The County Executive's Office has received this report and is amenable to give the second \$15,000.

- WHEREAS, the Wisconsin Department of Transportation (WisDOT) created a road maintenance pilot program designed to create transparency of how transportation dollars for road maintenance is being spent and what type of projects are being completed; and
- WHEREAS, as a participant in the Performance-Based Maintenance (PBM) Program, Racine County submitted a formal bid and entered an agreement with the WisDOT for specific field/crack and shouldering projects in Racine County; and
- WHEREAS, Racine County completed the scope of work for the afore-mentioned projects and accepted payment for service and materials as provided under the agreement; and
- WHEREAS, the 2005 freightliner hook lift truck that best fits the requirements of the Public Works Division will cost \$71,600.00 (proposal attached); and
 - WHEREAS, this new equipment will be used for future PBM projects; and
- **WHEREAS**, this 2005 freightliner hook lift truck allows multiple trucks to be combined into one by enabling the truck to change bodies as needed; and
- **WHEREAS**, this truck has the capability to have several types of "bodies" placed on it for use in many different situations using a hook lift system; and
- **WHEREAS**, the truck will be used as a conventional dump truck, tree chipping box, de-icing tank with spray bar and a simple flat bed for carrying equipment to and from worksites; and
- WHEREAS, by having the capability of changing out bodies will allow the department additional efficiencies in routine operations; and
 - WHEREAS, there are available funds in the Public Works PBM Materials Account.

The foregoing legisla Racine County, Wisc Approved: Vetoed:	onsin, is hereby:	ounty Board of Supervisors of
Jonathan Delagrave,	County Executive	

INFORMATION ONLY

WHEREAS, the SOTER RS Full Body Scanner is the leading industry contraband detection scanning system and is currently being used in Sheboygan and Kenosha County as well as others in Wisconsin; and

WHEREAS, the SOTER RS is a low dose X-ray scanning system that detects all types of dangerous or illegal substances such as liquid explosives, drugs, copper wires, plastics etc.; such items would be considered contraband within a correctional facility and pose a danger to the safety and security of the facility, the inmate population, and the staff; and

WHEREAS, the SOTER RS Full Body Scanner is the most clear, concise, and user friendly option of body scanners, and the Racine County Sheriff's Office requests authorization to purchase one scanner for use at the Racine County Jail; and

WHEREAS, the X-ray examinations proposed will include inmates passing through the SecurPass full body scanner to provide an image of the inmate's entire body. The image produced will allow the operator of the scanner to detect contraband hidden under clothing or inside of a body cavity; and

WHEREAS, Current methods of searching inmates entering the facility include pat searches, custodial searches and strip searches as allowed by current state law. Although such searches have proven to be effective in locating some contraband in the past, they fail to detect contraband hidden within a body cavity. The use of the SOTER RS will enable security staff to detect and locate contraband that cannot be detected using current search techniques; and

WHEREAS, the SOTER RS screening system has been installed by OD Security North America. The system has further been inspected and registered by the State of Wisconsin Department of Radiation Protection. Exposure to a screened individual is 1.8 uSv per scan. The system self-calibrates before each scan and a dosimeter controls the exposure during screening. The dose of exposure is recorded by the system and tracks the accumulated exposure for every individual scanned; and

WHEREAS, the images produced will be viewed by Sheriff's Office jail staff who have been trained as SOTER RS operators by OD Security; each operator has received a Certificate of Completion as documentation of the training; and

WHEREAS, the images produced by the SOTER RS system will be retained on a secure, standalone server and will only be accessed by trained staff; the images will be retained in accordance with records retention policies of Racine County; and

WHEREAS, most inmates will be screened one time, during their initial intake to the facility. Inmates leaving the facility for Work Release and inmates performing work details could be screened once per day; the screening program will be ongoing; and

WHEREAS, the Sheriff's Office intends to purchase two body scanners and have them in use by the end of 2018; and

WHEREAS, the individual cost of each body scanner is \$118,750.00 which includes shipping, installation, calibration and testing, operator and administrator training, and a two-year full warranty; the cost of hardware is \$2,139.00 for the computer system; the cost of software is \$2,400.00 annually; and the cost of the warranty for the third and each subsequent year is \$9,750.00 per year; and

WHEREAS, there are sufficient funds to cover this purchase in the Jail Commissary 2018 Budget.
