Addendum
RFP #840 – Brighter Futures Initiative

This Addendum has been prepared by: Racine County
Duane McKinney

This Addendum is issued to correct sections **1. Specification** paragraphs **1. Introduction** on page 3 of the Request For Proposal dated September 24, 2020. Areas in italic indicate changes.

Section I. Specifications

1. Introduction:

The program provides a county-wide substance abuse prevention program targeted to elementary school and middle school age children and their parents. The program incorporates the previously independent Holistic Prevention Program as a program component. Although the program's services can include single presentations to groups of children/youth in schools, churches, community centers, etc., the program's primary focus must be on services provided to selected/registered groups of children/youth over a period of time so that the impact of the program can be measured.

The program is expected to utilize and incorporate the expertise of community resources in its programming, e.g., RCHSD, schools, community family/youth serving agencies, law enforcement agencies, etc. The program includes both instructional and recreational components. The Provider is expected to enlist the services of other agencies through volunteer services or subcontracts for instructional services beyond the expertise of the Provider, e.g., AODA, teen pregnancy prevention, tutoring, etc. A major emphasis of the program is helping youth identify their interests, identify short and long term goals, develop short and long range plans for implementing their goals and assist youth in achieving their goals.

The program's services are provided during the school day, after school hours, evenings and weekends during the school year with additional scheduling during the summer months. The program is family centered with parents involved in the program as much as possible. Program services are provided "with" parents rather than "for" parents.

Referrals to the program come from RCHSD, schools, neighborhood centers, law enforcement agencies, parents, churches, etc. However, it is the Provider's responsibility to conduct outreach activities at schools, community/recreational centers, churches, etc., to reach children/youth and their families.
