The site was approved for 122-acres for mining and currently there is 15-acres being actively mined. The restoration of the site must meet or exceed all the requirements of the mandated NR135 regulation and subsequent nonmetallic mine reclamation ordinance adopted by Racine County in May of 2001. Staff has reviewed the plans, and met with a representative of Super Mix of Wisconsin at the site, the proposed quarry is operating within the framework of the county ordinance

Jack Pease, the agent, and Phillip Brown were present and answered questions from the committee.

STAFF RECOMMENDATION(S)

Staff recommends approval as this use appears to be permitted by underlying zoning and based on other things going on in the area, the proposed use appears “to fit” with the uses in the district. The Town of Waterford has approved this conditional use.
